Subject: Uber

It's a sad day once again in South Carolina. How about you stop making us the laughing stock of the entire nation. The people that use Uber aren't complaining, but the taxi companies are. What does that tell you? Taxi companies don't vote (but they do buy votes). The people who use Uber do and will vote.

Please, do what's right.

Rhett J. Reeves

Subject: Regarding the stop work order to UBER

Sent from my Verizon Wireless 4G LTE Tablet To whom it may concern at PSC My name is Christopher mancusi I am a 25 year veteran of the limousine industry. I started out driving for Carrie International and have gone on to own my own limousine business I operated Ambassador limousine service out of Columbus Ohio for 6 years . After moving back to Charleston in 2003 my father in law I started up Executive limousine of Charleston. In 2009 after the election when the industry had changed once more I sold my assets company assets and went out of business. I worked for above and beyond limousine service of Charleston for two and a half years they are partnered with limo link and a Boston coach. I know Mr Clayton from coastal limousine for several years and half of the limousine taxi services in the city Charleston. I watched it in the stree the city airport and resorts nickel and dimed transportation services the death. I am now an uber driver I support member services they are just as safe and more reliable than today's taxis and limousines as an uber driver we follow the same guidelines that are set by the city and state FBI background checks. Plus a 10 year driving record web have coverage insurance plus a safety inspection for vehicle every year. My vehicles are clean and well maintenanced operating machines my driving record is impeccable and it appears to me that the citizens of this city want UBER services. We are more reliable than taxis we can respond faster than they can at our cars are cleaner than a taxi cab uber clients do not want to ride around and an advertising automobile uber customers do not like being raked over coals on charges by the taxis and limousines aka black car services. Our cars are GPS test we can be tracked anywhere in the US why are phones and the UBER app. To put a finer point on the situation this is strictly about revenue for the state in the city and this is strictly about ego and control by the taxi Commission and limousine charter. This is unfair and unconstitutional also when are the minute we are online with uber we are covered under ubers \$2,000,000 policy of insurance . So we are in compliance with all state and federal regulations Mr Clayton of coastal limousine is using his influence as a X Charleston police officer to harass UBER and their drivers . And the taxi Commission thinks that were cutting in on their money they charge twice what charges a typical airport run from the

airport to downtown through a taxi is \$50 per trip . Atypical uber ride from the airport to downtown is \$27 to \$33 . Black car services like above and beyond and coastal limousine charge customers a hundred and twenty five dollars per trip and a hundred and seventy five dollars to Kiawah. As I stated before I feel this is unfair and unconstitutional I feel this is bullying and corruption at the highest degree with the taxi service and the limousine industry and the Regulatory Commission of South Carolina. Therefore I think the stop and work order should be lifted and uber should be continued to work as is. Uber has flourished and states as Washington DC New York City Chicago Illinois Atlanta Charlotte North Carolina la California and San Francisco California without a problem these industries are afraid of change and would like to continue the monopolize the transportation industry they have been doing it since 1990. Running out the small business man 2 line their pockets . Again thank you for your time and I would hope they hear that I can continue to make a living to support my family . Thank you for listening

Sincerely

Christopher Joseph Mancusi

Uber driver of Charleston South Carolina

Subject: Uber

Uber cabs have changed my life in a great way. Rides are dependable and affordable. Yellow Cabs suck in Charleston, SC and they smell awful. Every driver runs without a meter most of the time and I hate having to negotiate my price with them every time a get in. They are undependable too. It takes me 45-60 mins to get a cab to my house in James Island. Uber takes 8-11 minutes and I can see where they are on my app. Please let Uber stay so people have a choice. Nobody that I know takes a Yellow Cab anymore. Uber is far superior and dependable.

Thank you for your time,

David

When I visit Columbia I use Uber all the time....I use it all over the world and it is SAFE! We used it during USC's parents weekend as a matter of fact.

PSC SC
